## About Jakob's Sauces

At Jakob's Sauces we only use natural ingredients in the highest quality because we believe that it gives the best taste.

We look exclusively at the ingredients with the most flavour when developing our sauces. We prefer using organic ingredients, but if the better taste is found in a non-organic ingredient, we do not settle.

We never compromise with the taste. Our sauce labelled with "Smokey Naga" must taste of smoke and naga. However we always add our secret ingredients, love and passion for great taste.
