## Om Jakob's Sauces

At Jakob's Sauces we only use natural ingredients in the highest quality, because we believe that it gives the best taste.

We look exclusively at the ingredients with the most flavour when developing our sauces. We prefer using organic ingredients, but if the better taste is found in a non-organic ingredient, we do not settle.

We never compromise with the taste. Our sauce labelled with "Smokey Naga" must taste of smoke and naga. However we always add our secret ingredients, love and passion for great taste.

So why trust Jakob to bring you the sauces of your choice? Jakob has been in the world of gourmet food as the Owner & Founder of Christiansen & Partners and BRODERS.dk since 2007.

This has allowed him to be surrounded by food and beverages from all over the world, choosing the best of the lot for import and distribution in Denmark.

This knowledge has now been put into creating Jakob's Sauces where the focus is on great taste, the best ingredients, and fair prices. As well as sustainability and reuse of resources.
